

ELASTIC INFORMATION

TYPE	USES	CONTAINS	FEATURES/ADVANTAGES
NON-ROLL 	Sleeves, waistbands and leg bands	Polyester/ Rubber	Maintains its shape. Extra firm due to sideways running ribs which prevent it from rolling. Can be used in casing or sewn directly onto fabric.
RIBBED NON-ROLL 	Waistbands	Polyester/ Rubber	Maintains its shape. Extra firm due to sideways running ribs which prevent it from rolling. Can be used in casing or sewn directly onto fabric. Dries quicker than Non-Roll Elastic.
PLASTIC SWIMWEAR 	Swimwear, activewear and seam stabilizer in knits	Polypropylene	Light and thin. Chlorine resistant.
SWIM REEL 	Swimwear, wash and wear waistbands and legbands	Cotton/ Neoprene	Not affected by saltwater, chlorine, oil or solvents. Narrows when stretched.
SPORT ELASTIC 	Sport and sleepwear waistbands	Polyester/ Rubber	Comfortable and soft. Has channels running the length so that you can stitch directly onto the fabric. Easy to sew. Won't narrow.
BUTTON HOLE 	Children's waistbands	Polyester/ Rubber	Adjusts waistbands. Button holes are cut into the elastic and are evenly spaced throughout.
KNIT NON-ROLL 	Sleeves, waistbands and leg bands	Polyester/ Rubber	Provides body and shape without stiffness. Soft and will not narrow.
KNITTED ELASTIC 	Waistbands, belts, suspenders, sleeves and leg bands	Polyester/Rubber	Retains shape, stays flat when stretched.
CORD ELASTIC 	Ski and wind jackets	Polyester/ Rubber	For beading and gathering, and button loops.
MATERNITY PANEL 	Waistband area for maternity clothing	Polyester/ Rubber	Converts regular pants, skirts, etc. into maternity pants.
DRAW CORD 	Waistbands (usually in sportswear)	Polyester/ Rubber	Soft to the skin. The drawcord will expand to twice the length of the elastic. The cord can be secured inside the garment, or outside of the garment if a button hole is created.
ELASTIC W/ SILICONE 	Strapless bras	Polyester w/ Silicone Resin	Sticks to the skin to help prevent the elastic from slipping.
FOLD OVER 	Necklines, sleeves, activewear, headbands and encased seams	Nylon/ Spandex	Acts as an elastic binding. Comes with a channel down the center to allow it to be folded over easily and secured to the edge of the article. Shiny surface and plush back.
PLUSH BACK 	Waistbands, activewear and lingerie/ underwear/bra straps	Polyester/Nylon/ Spandex	Povides extra comfort when next to skin.
SOFT WAISTBAND 	Fast waistbands	Polyester/Rubber	Woven elastic that is soft to the skin. Resists rolling.
